METALICON®

Dynamic. Expressive. Enduring.

Ergonomic accessories
for office furniture

ARROW
GROUP

Discover Metalicon®

A growing range of ergonomic office furniture accessories intelligently designed by our team of experts

The Metalicon® product range was launched back in 2012 in response to a growing need for robust but refined accessories to support the office furniture market. We now supply Metalicon® products to customers worldwide.

The office environment has changed dramatically over the last decade with an increased focus on wellbeing, in particular employers pay high attention to workplace ergonomics and the relationship to productivity.

We launched our first pole-mounted monitor arm in 2013 to help office workers avoid the risks associated with display screen equipment and save valuable desk space. Our Kardo range has proved very popular and now includes arms for single, twin and quad screen setups.

Metalicon® has since added more monitor arms to the range, also strong and flexible cable management and compact power modules to the growing product portfolio. We look forward to announcing further intelligently designed product developments very soon.

Linx
Expertly engineered cable manager

Designed with strength, flexibility and ease of installation in mind, Linx offers the latest developments in superior cable management.

The unique 'twist not pull' linking system ensures the vertebrae will never pull apart under tension, but will detach very easily when twisted sideways. This ensures that Linx never comes apart while in use, but remains incredibly easy to extend and manipulate when needed.
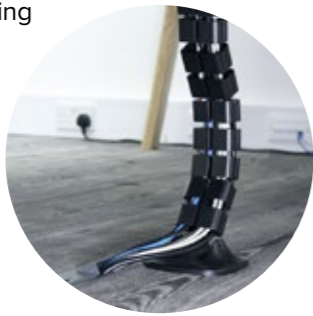

Choose from different lengths for fixed height or sit/stand desks or without the base for use between cable trays on sit/stand benches.

Multipurpose fixing clip
Mount to cable tray, wire basket or desktop

Dual cable compartments
30mm x 25mm

Unique linking system
Click-together vertebrae make Linx incredibly easy to shorten or lengthen and insert power and data cables

Large, weighted stable base with dual cable exits

SPINE	LENGTH	FINISH
20 vertebrae + weighted base	800	Black
33 vertebrae + weighted base	1300	White
33 vertebrae, no base (for tray to tray use)	1280	Grey

Fabric Cable Sock
Zip-up vertical cable wrap

Designed for use with a standard height desk the vertical sock is a versatile cable management solution. Made from 600g polyester mesh this durable fabric sock provides ample capacity with internal velcro straps to keep cables separate.

Adjustable velcro strap provides fine height adjustment

Flexible zip design allows cables to enter at different heights

Quick and easy to use

Ultra lightweight

Cable Trays
and baskets

Untidy power and data cables are unsightly, make cleaning difficult and can pose a safety risk. Use of a cable tray or basket underneath the desk helps to keep cables neat and tidy and the workspace clear.

Our range of simple but strong steel cable trays and baskets is designed to suit various desk sizes and arrangements.

Ocean Friendly Packaging®

Looking after our planet for future generations

Waste plastic is creating a global pollution problem, especially in our oceans. Nobody knows exactly how much, but recent estimates from respected scientific journals indicate some 8 million tonnes of plastic enter our oceans every year!

Since 2018 we have been focused on eliminating plastic from our product packaging. The majority of our product packaging is already made using recycled paper-based materials which can also be recycled again and our aim is to have all Metalicon® branded packaging completely plastic free by 2023.

Look out for our Ocean Friendly logo on Metalicon® branded product packaging. This indicates the packaging on this product is already completely plastic free! Thank you for supporting us in tackling this important issue.
